## MATERIAL SAFETY DATA SHEET

**Client** : Guangzhou Jiangman Biological Technology Co.Ltd  
No 263 Changban Street,TaiheTown,Baiyun District,Guangzhou,  
Guangdong,China

**Prepared by** : Shenzhen CDT Testing Technology Co., Ltd  
Room 605, Building A, Huaao Time Industrial Park, No. 170 Xingfa  
Road, Shangcun Community, Gongming Street, Guangming District,  
Shenzhen City, Guangdong Province

**Report Date** : Nov.19,2025

**Report No.** : CDT25111914YRS

**1. CHEMICAL PRODUCT INFORMATION****Product details**

Product name : NIACINAMIDE Modeling Mask  
Brand name : /  
Model : /  
TEL : 86-18922482670  
E-mail : 370403494@qq.com

**Supplier/Manufacturer**

Applicant : Guangzhou Runyan Cosmetics Co., Ltd  
Address : Building 2, Xiushuitang West 1st Road, Renhe Town, Baiyun District, Guangzhou City, Guangdong Province, China

**Summary**

As specified by the client, This safety data sheet was prepared in accordance with Un GHS Rev.9, The EU CLP REGULATION(EC) No 1272/2013, and Regulation (EC) No.1907/2006 (REACH) and its revised Regulation (EU) 2020/878. Please refer to attached report for details.

**2. HAZARDS IDENTIFICATION**

|                                                    |                                                                                                                                                                                                                                                                                                                           |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Classification of the substance or mixture:</b> | Classification according to Regulation (EC) No. 1272/2013 [CLP]:<br>Not classified<br>Adverse physical chemical, human health and environmental effects:<br>To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice. |
| <b>Label elements:</b>                             | Labeling according to Regulation (EC) No. 1272/2013 [CLP]:<br>No labeling applicable                                                                                                                                                                                                                                      |
| <b>Other hazards:</b>                              | No additional information available                                                                                                                                                                                                                                                                                       |

**3.COMPOSITION /HAZARDOUS INGREDIENTS**

| Chemical Name          | CAS No     | Content (wt%) |
|------------------------|------------|---------------|
| ZEA MAYS (CORN) STARCH | 9005-25-8  | 74.5          |
| DIATOMACEOUS EARTH     | 61790-53-2 | 13.4          |
| ALGIN                  | 57606-04-9 | 4.6           |
| CALCIUM SULFATE        | 7778-18-9  | 3.67          |
| MALTODEXTRIN           | 9050-36-6  | 3.25          |
| GLUCOSE                | 492-62-6   | 0.25          |
| NIACINAMIDE            | 98-92-0    | 0.11          |
| SODIUM HYALURONATE     | 9067-32-7  | 0.005         |
| HYDROLYZED COLLAGEN    | 92113-31-0 | 0.005         |
| ALLANTOIN              | 97-59-6    | 0.11          |
| ALPHA-ARBUTIN          | 84380-01-8 | 0.1           |

**Mixtures:**

This mixture does not contain any substances to be mentioned according to the criteria of section 3 of REACH Annex II

**4. FIRST AID MEASURES**

|                      |                                                                                                                                                                                          |
|----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye Contact:</b>  | Thorough rinsing for 10-15 minutes of the affected eye with water is recommended. If discomfort or irritation persists, contact a physician.                                             |
| <b>Skin Contact:</b> | Skin suitable for normal use.                                                                                                                                                            |
| <b>Inhalation:</b>   | If respiratory irritation occurs, remove individual to fresh air.                                                                                                                        |
| <b>Ingestion:</b>    | Accidental ingestion of product may necessitate medical attention. In case of accidental ingestion dilute with fluids (water or milk) and treat symptomatically. Do not induce vomiting. |

**5. FIREFIGHTING MEASURES**

|                                                               |                                                                               |
|---------------------------------------------------------------|-------------------------------------------------------------------------------|
| <b>Extinguishing media:</b>                                   | Suitable extinguishing media : Water spray. Dry powder. Foam. Carbon dioxide. |
| <b>Special hazards arising from the substance or mixture:</b> | Not available                                                                 |
| <b>Advice for firefighters:</b>                               | Not available                                                                 |
| <b>Fire&amp;Explosion Hazards</b>                             | Not flammable or combustible.                                                 |
| <b>Fire fighting instructions:</b>                            | Use personal protective equipment.                                            |
| <b>Special measures</b>                                       | Not available                                                                 |

**6. ACCIDENTAL RELEASE MEASURES**

|                                                                             |                                                                                                                      |
|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions, protective equipment and emergency procedures:</b> | Ensure adequate ventilation. Keep people away from spills/spills. Avoid inhalation, ingestion and contact with eyes. |
|-----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|

**7.HANDING AND STORAGE**

|                             |                                                                                      |
|-----------------------------|--------------------------------------------------------------------------------------|
| <b>HANDING:</b>             | Do not ingest. Do not enter the eyes. Do not breathe dust/smoke/gas/fog/vapor/spray. |
| <b>STORAGE:</b>             | Keep out of reach of children. Store in suitable labeled containers                  |
| <b>Storage temperature:</b> | 0°C to 50 °C                                                                         |

**8.EXPOSURE CONTROLS PERSONAL PROTECTION**

|                               |                                                                                         |
|-------------------------------|-----------------------------------------------------------------------------------------|
| <b>Engineering Controls:</b>  | General room ventilation is adequate for storage and ordinary handing                   |
| <b>Personal Protection:</b>   |                                                                                         |
| <b>Eye protection</b>         | Not expected to present a significant hazard under anticipated conditions of normal use |
| <b>Hand protection</b>        | It has no negative effects when used in accordance with the instructions.               |
| <b>Skin protection</b>        | It has no negative effects when used in accordance with the instructions.               |
| <b>Respiratory protection</b> | No respiratory protection needed under normal use conditions                            |

**9.PHYSICAL AND CHEMICAL PROPERTIED**

|                                     |                |
|-------------------------------------|----------------|
| <b>Appearance</b>                   | Powdered.      |
| <b>Color</b>                        | Beige.         |
| <b>Odor</b>                         | Tasteless.     |
| <b>Solubility water</b>             | Not available. |
| <b>Melting point</b>                | Not available. |
| <b>Ph</b>                           | Not available. |
| <b>Boiling point</b>                | Not available  |
| <b>Flash point</b>                  | Not available  |
| <b>Evaporation rate</b>             | Not available  |
| <b>Solubility in other solvents</b> | Not available  |
| <b>Boiling Point</b>                | Not available  |
| <b>Density(water=1)</b>             | Not available  |
| <b>Viscosity</b>                    | Not available  |

## 10. STABILITY AND REACTIVITY

|                                                 |                                |
|-------------------------------------------------|--------------------------------|
| <b>Stability:</b>                               | The product is stable.         |
| <b>Instability Temperature:</b>                 | Not available                  |
| <b>Materials to avoid</b>                       | Strong acids.                  |
| <b>Conditions to avoid</b>                      | High Temperature               |
| <b>Incompatibility with various substances:</b> | Reactive with oxidizing agents |
| <b>Polymerization:</b>                          | Will not occur.                |

## 11 . TOXICOLOGICAL INFORMATION

|                                              |                                     |                |
|----------------------------------------------|-------------------------------------|----------------|
| <b>Information on toxicological effects:</b> | Acute toxicity (oral) :             | Not classified |
|                                              | Acute toxicity (dermal) :           | Not classified |
|                                              | Acute toxicity (inhalation) :       | Not classified |
|                                              | Skin corrosion/irritation :         | Not classified |
|                                              | Serious eye damage/irritation :     | Not classified |
|                                              | Respiratory or skin sensitisation : | Not classified |
|                                              | Germ cell mutagenicity :            | Not classified |
|                                              | Carcinogenicity :                   | Not classified |
|                                              | Reproductive toxicity :             | Not classified |
|                                              | STOT-single exposure :              | Not classified |
|                                              | STOT-repeated exposure :            | Not classified |
|                                              | Aspiration hazard :                 | Not classified |

## 12.ECOLOGICAL INFORMATION12

|                                            |                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Toxicity:</b>                           | Ecology - general : The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.<br>Hazardous to the aquatic environment, short-term (acute)<br>: Not classified<br>Hazardous to the aquatic environment, long-term (chronic)<br>: Not classified<br>Not rapidly degradable |
| <b>Persistence and degradability:</b>      | No additional information available                                                                                                                                                                                                                                                                                                  |
| <b>Bioaccumulative potential:</b>          | No additional information available                                                                                                                                                                                                                                                                                                  |
